

Brand Identity Guidelines

Who We Are

Arus Digital is a Kuala Lumpur-based AI-native technology company. We build Miccy, an AI intelligence officer for Malaysian business leaders, and operate a full-service digital agency powered by autonomous AI agents. Our brand is built on three qualities: the precision of a fintech tool, the speed of a startup, and the trustworthiness of an established firm.

Precise

Every output is specific, numbered, and ranked.
No vague insights. No generic summaries.

Fast

7am brief. WhatsApp delivery. Five points.
Read in under five minutes.

Trustworthy

GLC-compliance standards. Built and operated
in Kuala Lumpur by Malaysians.

Brand — design *is* the product signal

PRIMARY AUDIENCE

Malaysian SME CEOs and GLC decision-makers

ANTI-REFERENCES — WHAT WE ARE NOT

- × Generic AI agency aesthetic (dark purple gradients, circuit board motifs)
- × Big-corp consulting rigidity (navy + gold, stock-photo-heavy)

- × Warm beige editorial (cream paper, terracotta, serif-heavy editorial)
- × Malaysian govt / GLC web patterns (flat colour boxes, heavy padding)

AI-NATIVE TECHNOLOGY

Pairing principle

Fraunces (serif) for display and editorial moments. Inter (sans) for UI, body, and data. The contrast between the two creates the Stripe/Linear energy that defines the brand: rigorous but human.
